Wascomat Laundry Equipment

The Standard of Quality for Over 100 Years!

Wascomat 21st Century, quality, automated, energy, water and gas efficient laundry equipment designed and built to work for generations in a size and model for every laundry need!

Whether you are installing a new laundry, renovating, or replacing worn out, energy, water, gas and labor wasting laundry equipment, Wascomat automatic, state-of-the-art, efficient soft-mount and solid-mount washers, dryers, semi and fully-automatic flatwork ironers, designed for any installation, ground or upper floors, are the best choice.

Wascomat automated laundry equipment is designed and engineered specifically to meet the demand of modern, efficient on-premises and commercial laundry needs where quality, efficiency and labor cost savings are essential.

As outside laundry and linen service costs go up, institutional and hospitality owners and managers worldwide are processing their laundry by installing a Wascomat equipped in-house laundry with efficient washers, dryers and flatwork ironers. ■

Residual Moisture Control (RMC)

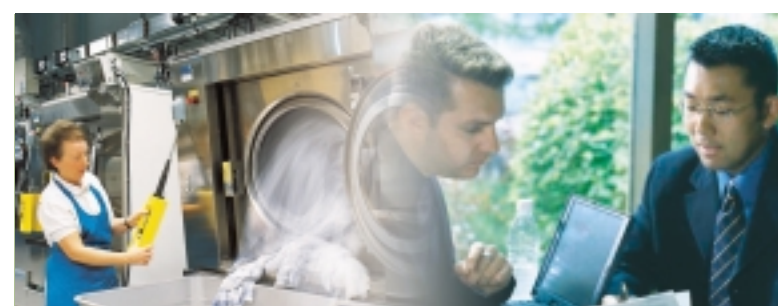

A low voltage current is passed through the laundry by specially insulated lifters. The moisture is measured 400 times per second with a sensor and collector assembly. The RMC microprocessor maximizes the desired drying process.

WASCOMAT ENERGY EFFICIENT DRYERS are available in gas, steam or electric-heating models in single-pocket and space-saving twin-pocket models to fit any need. Optional unique Wascomat Residual Moisture Control (RMC) automates the dryer to stop at a preset moisture level to prevent overdrying for longer garment life, increases productivity and saves energy. Engineered for economical use of energy and a long, money-saving working life. ■

WASCOMAT FLATWORK IRONERS are available in fully-automatic and semi-automatic models in a variety of sizes, with labor and utility saving features including the world's only single operator, fully-automated ironer models that do it all – feed, iron, fold, stack and count – all with one operator. ■

Wascomat and its authorized dealers worldwide provide:

- ▶ Free survey of your laundry needs and requirements and specify the size and model of the laundry equipment.
- ▶ Laundry design and layout.
- ▶ Installation, start-up and training.
- ▶ Parts and service.
- ▶ Laundry equipment leasing and financing.
- ▶ Best customer service.

Automate your laundry with Wascomat leasing or financing.

For over 50 years Wascomat and Viking Financial Services L.L.C. provide flexible, low cost leasing and financing for commercial laundries. ■

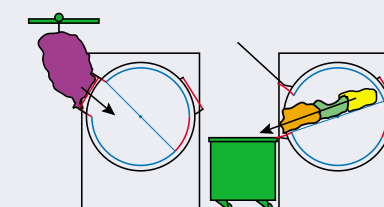

PULLMAN, SIDE-LOAD CLEAN ROOM & BARRIER WASHERS

Ideal for installation where maximum hygiene and a clean environment are essential or desired.

- ▶ The Wascomat "Clean Room" and "Barrier" models separate the wash process into a soiled laundry side and a clean laundry side.
- ▶ Built to specifications and requirements.
- ▶ Automatic door opening, wash cylinder alignment and door locking and unlocking.
- ▶ Frequency controlled motor for variable wash speed and extraction selection.
- ▶ Large door opening for easy loading and unloading.

Pullman washer models are ready for sling loading.

During the unloading, the horizontal partition of the wash drum slants downward. During sling loading, the horizontal partition is upward to provide a convenient and easy shelf to load.
